No change has been made to the recertification requirements for premises restricted permits. People with those permits will continue to recertify with the State Police every five (5) years.

To help transition from the five-year recertification requirement to the new three-year requirement, anyone who had a concealed carry

permit issued before September 1, 2020, will have until August 31, 2023, to recertify. In addition, those individuals who were issued a concealed carry permit or recertified after September 1, 2020, will not

become due to recertify under the new law before August 31, 2023, and may therefore wait to recertify until the third year after permit issuance or their last recertification.

Recertification can only be done online. State Police will no longer accept paper forms.

It is your responsibility to recertify your permit whether you receive a notification letter or not. Failure to recertify within the required time shall act as a revocation of the permit.

Recertification can be submitted online at [NYS Safe Act](#).
